

Alternative Groove Metal hailing from Sofia, Bulgaria - Est. 2017

Rising from the underground rock scene of Sofia, Bulgaria, the 5-piece Rock outfit Hellion Stone deliver an ear-punching sonic crossover of alternative rock groove-metal. Their debut self-titled album contains nine soul-shaking original songs, reminiscent of the likes of Audioslave, Black Label Society, Black Stone Cherry, Soundgarden, Alice In Chains, and Clutch. Hellion Stone's second studio album Scapegoat contains twelve earth-shattering original rock 'n' roll tracks, with a pinch of metal, a generous dash of alternative, and a notable smidgen of grunge.

Despite being relatively fresh onto the scene (2017), Hellion Stone have collectively racked up over a CENTURY on stage with their former acts, and have been quick to both perform abroad, and catch the attention and ears of industry and fans worldwide.

Stay tuned for news on releases and tour dates.
